TUFTLESS BEDDING

GLOBE BEDDING CO. LTD.

Builders of Better Bedding for 25 Years

TWENTY-FIVE YEARS OF PROGRESS

The character of a Company shapes its destiny. From a humble beginning twenty-five years ago to one of the largest bedding plants in Canada today, is quite an achievement.

While there may have been many factors responsible for this accomplishment, we believe that it was due, in large measure, to our persistence in producing only quality products.

We feel, however, that the prestige and goodwill, the greatest asset a business can possess, presently enjoyed by us, would not have been possible without your co-operation.

For true progress, whether in the case of an individual or a firm, cannot be expressed merely in dollars and cents, but rather in the number of friends and the kind of friendship acquired.

We consider ourselves fortunate in having acquired your friendship.

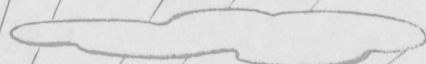

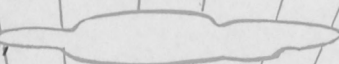

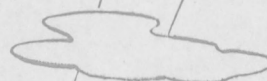

The celebration of our 25th Anniversary must, of necessity, be regarded also as your celebration. You have placed your trust in us, and faith in our products. We shall always uphold that trust.

Sincerely yours,

GLOBE BEDDING CO. LTD.

W. Keller

Vice-President.

HEAD OFFICE AND FACTORY - WINNIPEG, CANADA

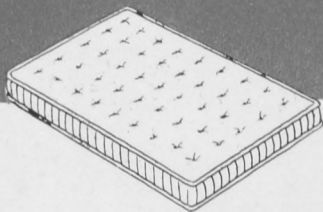

INTRODUCTION

Scientifically built bedding is the demand today. Sleep equipment is now expected to be luxurious in comfort, beautiful in appearance and built to last.

To meet this demand, we have devoted much time and energy in producing a line of bedding that possesses these qualities, and we are proud to present it to you.

We wish to draw your attention, particularly, to the Tuftless Mattress—a smooth-top mattress—successfully produced after years of painstaking research. This new line of Mattresses, together with the Tufted Mattresses, as well as the new Davenports and Studio Lounges, is evidence of the high standard of quality and workmanship we set on our products.

It is our constant aim to follow and rigidly maintain this standard of manufacture.

ENJOY THE
Rest
OF YOUR LIFE

The luxury of deep, *restful sleep* is open to all but few realize it can be obtained. To be merely sound asleep is not sufficient to rid one of fatigue, for sleep, to be advantageous, must be deep and undisturbed.

Proper support of the body, plus the proper amount of resiliency, are the two important factors in a mattress, which leads to luxurious relaxation.

Globe mattresses provide this easy access to proper sleep because they are scientifically built.

ENJOY THE *Rest* OF YOUR LIFE

BOX SPRING TO MATCH \$42.50

It's Quilted . . . It's Tuftless

A new thrill in sleep comfort that will delight you. Combining the two most sought for qualities yielding the utmost in rest, perfect resiliency and proper support. Truly the cheapest because it's best. Packed in a sanitary sealed carton.

THE PERFECT SLEEPER

THE PERFECT SLEEPER

Nationally advertised Tuftless Inner Spring Mattress, guaranteed as advertised in Good Housekeeping.

A revolutionary new-type mattress which, sensibly, does away with all unevenness—with dust-catching knots, hills and valleys. Its smooth, tuftless surface, its patented resilient spring unit produces a uniform softness.

Every ounce of your weight is supported evenly, every curve of your body is moulded like a fashioned glove. Smooth . . . Sanitary . . . easy to keep clean.

Beautiful in appearance. Exclusive design created by one of America's famous designers. Packed in sanitary sealed carton. Box spring to match at the same price

THE BALL MEMORIAL HOSPITAL, Muncie, Indiana, is SLEEPER Sanitized equipped.

HOTEL WINDERMERE, East Chicago, is equipped with SLEEPER Sanitized Mattresses.

THE LA SALLE in Chicago is equipped with SLEEPER Sanitized Mattresses.

COMFORT *and* QUALITY

Comfort and quality are the main qualifications demanded by Hotels, Homes and similar Institutions, when in the market for sleeping equipment.

To meet these qualifications, "GLOBE" has built a line of Institution Equipment to pass the inspection of the most discriminating buyers in the world—purchasing agents for Institutions.

We are particularly proud to present the Sanitized Hotel inner spring Mattress because of its dependable sanitation, since a sanitized ticking—specially processed to resist vermin—covers this genuine "SLEEPER" mattress built to give comfort.

You will find the same high grade quality in our other Institution Equipment, illustrated in this section, and we welcome your enquiries.

ST. MORITZ, New York City, selected PERFECT SLEEPER.

THE DANIEL BOONE, Charleston, has just installed brand new "PERFECT SLEEPER" Mattresses and Box Springs.

THE BISMARCK, Chicago, is "PERFECT SLEEPER" equipped.

GLOBE INSTITUTION MATTRESSES

SANITIZED TUFTLESS HOTEL MATTRESS

An ideal mattress for Hotels and other Institutions because it is sanitary, smooth and easy to keep clean. It is built along the lines of the famous tuftless "Sleeper" mattresses. A scientifically tempered construction, highly resilient with sisal pad insulation and the best grade white cotton. Covered in a specially processed sanitized ticking. Handles, ventilators, tape edge. Supplied in all standard sizes.

GLOBE HOTEL MATTRESS

Covered in the well-known ACB Blue and White stripe ticking. Built for comfort and long wear.

No. 1 HOSPITAL MATTRESS

The finest of cotton mattresses. Filled with layers upon layers of the highest grade long-stapled white garnetted cotton. Covered with Blue and White striped ticking and finished beautifully with a two-row stitch and tape plain edge.

No. 2 HOSPITAL MATTRESS

For a moderately priced mattress, there is nothing better than this well-filled white cotton mattress covered in Blue and White striped ticking. Finished with two-row stitch, roll-edge.

INSTITUTION PILLOWS

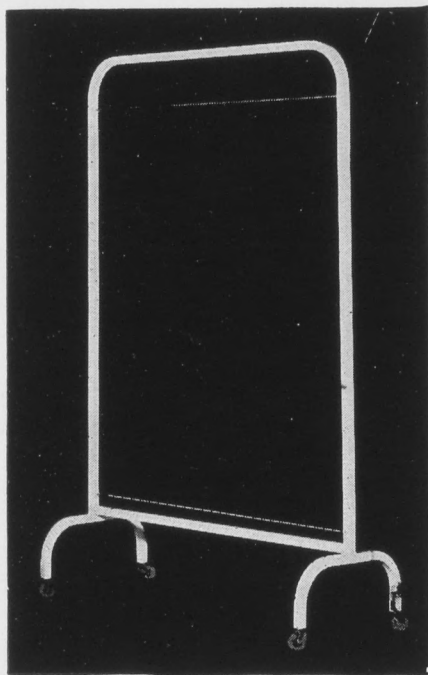

Pillows to meet the requirements of the Hotel, Home or Institution. Filled with a variety of filling such as goose, duck or chicken feathers scientifically treated and covered in closely woven blue and white striped ticking. Made in various sizes.

HOSPITAL EQUIPMENT

BEDSIDE SCREENS

Constructed of 1-inch square tubing, welded into a strong durable unit, light in weight and easily manipulated. Free, silent, easy-running casters. Rods are of stiff drawn steel and provided with a locking nut to prevent dropping out. Overall height 68 inches. Distance between rods 52 inches. May be had in any finish desired.

No. 3030—Single Panel Bedside Screen.
